Zinc - Nickel - Cobalt (Zn - Ni - Co Equisetum 5 grs.)

Model : EQ-21

Manufacturer : *Forza Vitale*

Composition according to manufacturer: Gluconate of zinc, gluconate of nickel, gluconato of cobalt. Way of use according to manufacturer: 7 sublingual grains daily.

In Forza Vitale, we followed the technical alchemists who traditionally practiced in the production and transformation of the plants, minerals, metals, etc.

For a long time, one has thought that the beneficial action of the medicinal plants, had only to some active principle that could be isolated (to synthesize); but in recent years it has been discovered that exists a kind of "influences" or factors, that are not quantifiables, but that have repercussions over the power and effectiveness of the remedy.

Our spagyrics remedies are prepared with precise and strict norms, that they consider the astral cycles and influences, as well as the specific affinity of each substance.

Forza Vitale, offers us a complete range of products, whose processing imitates the Nature process, recovering therefore the herbalist tradition: To separate (purify) and to reunite.

We also separate in the laboratory, the active principles from the less assimilable parts to our body (purifying them), meeting there in a highly bioavailable solution, that will help you to maximize your well-being at all the levels: Physicist, mental and spiritual.

Organs and meridians clock, for the selection of the product:

For tablet use, tablets and also liquid extracts in combination with the tongue meridians. It is necessary to remember that we are to follow the solar time, and for this we will have to reduce - 1.00 h. of the standard time in the period that goes from the 31 of March to the 27 of October.

White Gold

Black Gold (Powder)
<i>Manufacturer : Grial</i>
<p>&nbsp;</p> <p>WHAT IS THE BLACK GOLD (Powder)?</p> <p>&nbsp;</p> <p>It is a unique gift from the nature, not otherwise known as. This is a natural river sediment born deep in the mountains of Oregon and is rich in elements in M-State, silica, electrolytes and trace elements (approximately 70) of a large bioavailability.</p> <p>&nbsp;</p> <p>The form of silica (SiO4 tetrahedron), confers special properties to combat the poisoning caused by chemical, radiation and heavy metals, since it binds to them making them disposable.</p> <p>&nbsp;</p> <p>It has great properties for the cell renewal and rejuvenation, gradually increasing our energy and wellbeing. In fact, it is advisable to improve the sleep quality and in relaxation or meditation practices as yoga, Zen, Chi Gong, etc.</p> <p>If you find this interesting, wait to see the rest of the discovery.</p> <p>HEALING AND DEVELOPMENT</p>

This form of Gold in Dust, is connected with the archetype of the "shadow" Jung found in their investigations. So it is about the great integrator of the contents of our "shadow."

Its dark color suggests several aspects and the most important questions of our consciousness:

- The death, the magic, the night and mystery.
- It is the most enigmatic color and it is associated with fear and the unknown.
- Black color also represents authority, strength, intransigence and unwanted aspects.

Black Gold (Powder) completely reset our body energy, balancing our hormonal system. Special mention must be exercised over the action over pineal gland, which produces naturally the melatonin and on the pituitary, which produces in a natural way the growth hormone (HGH).

To accept and acknowledge our own shadow is an important mission, because due to that it is possible to reach the awareness and the fullness. This is one of the most important experiences in lifetime. To balance our rigid cultural indoctrination, we need to work the shadow every day.

ASTRAL CLEANING

At the time of sleep, work and energy adjustments are made that we were unable to integrate into the vigil, and that is why it is so important to rest well and take advantage of what the dream world gives us.

In this moment is where best moves Black Gold (Powder). As we have said, taking the Black Gold (Powder) promotes the health of our dream life that is a very important part to our health and development, removing and cleaning up toxic contents of our subconscious or frozen, which would be damaging our health and wellbeing.

This may explain the very vivid dreams and so deep sleep that you can experience when you are taking Black Gold. Some people reach very lucid dreams and have significant impact on quality life.

THE SHADOW AND THE DREAM

The "shadow" aspect which inhabits this product in our subconscious is the rejected one, the ignored one for not being socially

acceptable. This is an effort to adapt ourselves to access our evolution, and that goes away in a dark room all our life experiences that can not be accepted or recognized as their own.

Jung called the "shadow" as:

"Our darkness brother that even though being invisible, is part of our personality."

Black Gold (Powder) helps us to integrate the subconscious contents adequately, mainly through the dream, but also in meditation and retreat periods, we can find in Black Gold (Powder) a powerful and loving ally.

After the "shadow" is our Soul, when we have been able to integrate the "shadow" we will be in direct line with the Soul or the Alchemist's Anima Mundi.

EVOLUTION AND SALVATION THROUGH THE SHADOW APPEARANCE

In general terms the "shadow" is the dark part of the soul of every human being. In another way we can say that in this land of the unconscious meet all human miseries pertaining to individuals and

communities, experiences, feelings, images, symbols that can be personal and universal.

Evil, selfishness, envy, the lust for dominance, power, greed for money, jealousy, greed, kitsch, laziness, presumptuousness, neglect, manipulation, cowardice, and many of our fears emotions and feelings that are not easy to recognize as part of our personality.

Many times we realize when they lead us to conflict with others, aggressive unexpected events, feelings of guilt, selfishness and inexplicable depressions and, above all, do not fit with the image we have of ourselves nor fit the social image we want to give.

Normally when the individual cannot assume these features by himself, he attributed them to others; it means he projects them onto the others. Thus we see reflected our own flaws, or limitations, in the negative attitudes we adopt toward those around us. When prejudice and exacerbated critics prevent us to interact with neighbors, with colleagues, with the other races, with foreigners, with the other countries, is running the individual shadow as a non integrated part of the psyche. But also the groups, families, organizations and various components of the social structure have their own shadow.

This heavy negativity carries a huge potential psychological energy that can arrive to invade the consciousness producing some unfortunate effects over human relations. The shadow's destructive capacity is very powerful and it is individual responsibility to

moves all the bodies... Many look for it and few find it."

Red Lion, is the later Christ to his Death, is the revived Christ, that pronounces to Apostles transfigured. He is the Invincible Sun, whose emblem it's Leo, eternal star who shines in the children hearts. Lamb is the white color of the alchemists, the lion is the red that seals the Great Work.

In alchemy, it corresponds to "the fixed" element, sulfur. Opposed other three animals, it represents the Earth, although in other texts is called "philosophical fire" while to gold is named as "metals lion". The red lion is the one that more properly responds to this last meaning.

MAGIC, ALCHEMY And INITIATION.

One of the most interesting characteristics on alchemy, is that the magical rituals are related to the alchemy process. In fact, this type of information is very little in classic alchemy texts. Nevertheless, one of the magical instructions concerning the alchemy that it could be found is in a very old text and only titleholder: "Testamenti Fraternitatis Rosae ET Aureae Crucis - Liber II: Of Divine Magic et Naturali, cum Chymico-Magicae Secretorum ".

Red Lion, is the alchemist Potable Gold, prepares to the Initiation and allows the spiritual growth to people who are prepared. It supposes a passage beyond the White Gold (Ormus). The process described in this document is an internal alchemy practice using "Potable Gold" related to the seven Planetary Intelligences and Creator Angel Custodian evocation. It must be emphasized that all those magical practices, were always possible soon of Philosophers Stone achievement, that was used like a type of "astral magnet" to communicate with spiritual organizations.

Some Adepts emphasize the fact that nobody could really practice Magic, without obtained before the Philosophers Stone and to become regenerated by their powers. In fact, the Philosophers Stone could wake up the precognition faculties those could be very useful to communicate with spiritual beings during a magical evocation.

It must know that the ingestion of Potable Gold or "Red Leon" can be dangerous for people nonprepared, because those substances wake up what the old Rosacruces Followers called "body subtle fires" (kundalini). This is the reason for which the Followers never give the Elixir, or Potable Gold, to students nonprepared and young people, but only to experienced students, of at least 40 years of age and only after years of training.

Another route from approach to "Red Lion", is the previous preparation at least 2 months, taking White Gold (Powder), after this you can add to your taking the White Gold (Ormus) along 2 more months, and after you will add the "Red Lion" with the White Gold (Powder) and stops Ormus taking.

Red Lion (30 ml): Contains Potable Alchemy Gold (99%), in monoatomic state. Recommendations: For people with certain training and spiritual development, generally from 40 years old. Suggested use: 10-12 drops 1 or 2 times daily, diluted in water or directly under tongue.

Who are the CATHARES? The PERFECTS, as per the meaning of their names, appeared in Eastern Europe, probably in Bulgaria, as a reaction to the lust, degradation and greed of the Catholic Church, at this time ruled by Pope . Anyone who would not accept the authority of the Church and would not act in conformity with the Church's rules, was declared Heretic and condemned to the stake. Not only did the Cathars teach the old Tradition, but they also refused the Sacraments of the Church, even marriage! Also, the Pures were very popular to the people because of their famous irreproachable behavior, and their compassion. The Cathars were divided in two categories:

The ADEPTS, sometimes described as the "Unknown Superiors", were believed to be spiritual entities incarnated for this specific task and time. Detached from human life, they were renown as powerful healers, who were transmitting the Holy Spirit. As carriers of the Great Tradition, the path of the Cathars was ahead of its time. As multi-dimensional travelers, their purpose was to demonstrate the power of love, forgiveness, integrity and tolerance. The Initiates mastered the Art of "Riding the Light". In the occult tradition, riding the Light means to master the Energy, the capacity of Being and Acting out of the veil of Time, reading the Akhashic Records, and therefore standing in deep trust and detachment. "As well as the Christ, they healed the body through the healing of the soul."

The Disciples, who were enjoying all aspects of human life, including sexuality and procreation. All Cathars were vegetarian. While Europe was living under the feudal system, keeping the vast majority in misery and famine, the Cathars taught the abolition of casts and self-value based on money. The Jewish people, considered as pariahs, were welcome in the Order. The Cathars believed in reincarnation, astrology, and celebrated the Equinox. They knew that the Universe is only Light and Love and their similarly to the Egyptians or the Freemasons one of the Cathars rites of initiation is the death of the lower self and the rebirth into the path of initiation. The disciple is locked into a room (free masonry), a cave (Shamanism) a sarcophagus (Egypt). He is confronted to himself, to his own demons, his subconscious mind for 3 days. Then, the disciple is ready to enter the path to enlightenment.

The Cathars, aware of the laws of Duality were adepts of the transmutation of Darkness through love and purity. Man participates in God's victory toward ignorance (= the absence of Light) and evil (absence of Love). The Cathars taught internal ALCHEMY, which is the transmutation of Self in Gold (Golden Light).

Also, they were teaching TANTRA, sexuality transmuted by Love and Spirit, as a tool for enlightenment. The Initiates or Pures were celibates. The others were expected to enjoy life and participate in the beauty of procreation. However love was to be raised to the level of a sacrament, a path out of Duality and to multi-dimensional travel (practice of true tantra allows the couple to experience states of consciousness that are more difficult for them to reach in the 3D world). The Cathars were practicing the retention of the sperm associated with the mastery of breath and Energy.

Our books, literature about alchemy, the mysterious substances that we were using during the initiation rites, a mask from beyond Egypt, were part of the package. The sacred emerald, that was passed from one brotherhood to the other since Atlantis, the one with the purple aura, was also carried by this group, as well as some gold, very few in fact...

"Three other people, two men and a woman, left with our most precious treasure, the relics from the Christ, transmitted to us from the Essenes, our brothers. The relics, some bones and ashes, kept throughout centuries with pure divine atomic Energy, were hidden in a castle for several decades, then they crossed the great Ocean towards the New Continent. It might be discovered in a few decades, from 2000, in a canyon in ... the United States."

The Holy Grail, is not a physical object. Each of us can see and create his/her own Grail. Clairvoyantly speaking, it looks like a recipient, at the base of our spine. This cup, is the sacred vase in which the holy alchemy occurs when you are ready. Tantra, as practiced by the yogis or the Cathars is a human path to the elaboration and the blending of the Energies. However, this time is over. The Sacred Marriage, only possible after the blending and transmutation of the Light and the Darkness, in their purest form, sublimated by Love and Wisdom (knowledge + intelligence) is the real Union. The alchemy might be facilitated by Red Lion, in order to prepare the body and open some doorways in you spiritual structure. However, each Being still has to be complete as Self, as God is One and United.

In the 70 years David Hudson discovered a new state of matter. In this alchemy process searching the Philosopher's Stone, Hudson wore out several thousands of dollars. At the end of the decade it was able to extract a material that exhibited a strange behavior. Hudson called to this material ORMES (as acronym for Orbitally Rearranged Monoatomic Elements). Since some of these elements can be diatomics and Hudson has also patented these materials, we will refer to them with the name of ORMUS or M-state elements (m-state: located at micro cluster level). These elements are left force fields and they float magnetically. Hudson and others have isolated these elements in the cerebral tissue and some plants. We think that they modify a tubuline and they become into micro tubulines; creating an interaction outside from the space-time, among the cells and maybe among the individuals. It would be a bridge between the mind and the matter. These materials are involved in several biological and psychic processes, with effects on Kundalini awakening . Several people that have taken it for long periods of time, point out that they experience many of the effects related in the Vedic texts, about the Kundalini Ascension.

Microtubuline images, in different cellular mitosis stages.

These materials are difficult to manipulate using the conventional chemistry. Although they don't react in the same way that their metallic colleagues, there is a weak reaction, possibly due to the connection resonance that can create a kind of chemical shade with these elements. It seems that the old alchemists used this chemical shade, through the different reactions that they caused, until getting the result that they wanted. It has been observed magnetic levitation and anti-graveness with these materials. In several readings; Hudson says that if the iridium of ORMUS warms to 850° Celsius; this will disappear and it will loose all its weight. When the low temperature; it reappears and it recovers most of their previous weight. The patent of Hudson contains an analytic map generated by a water heater-gravimetric apparatus that illustrates this effect. If like it seems, the elements of ORMUS can disappear of this Universe, it seems clear that they will go to anywhere. The analytic map of Hudson indicates that during the trial of elevating the temperature, the iridium ended up reaching 300% less than its normal weight. It is very possible that ORMUS has some of the estates of the water or "tubuline" inside the micro tubulines of each cell. Hameroff and Penrose believe that these micro tubes are the "quantum collapse point" where the information about multiple universes are "collapsing" inside a "conscious selection" or decision. The sequences of these decisions would constitute the cell conscience, being the interactions among many cells those that would be forming the organism conscience. In this crossroad class that supposes the organism conscience, it would be required many decisions by the atoms of this universe that could be solved using "calculations" that would interact in an infinite number of other universes.

Bridge between the energy and the matter. Quantum collapse of the photonic energy, conforming the atomic reality.

It is also thought that ORMUS elements are into tubulines inside the micro tubes, making a resonance that connects the body cells. As it increases the quantity of ORMUS elements in the body, they strengthen the resonance connections. An example of this connection type, takes place when DNA is repaired by the action of platinum group elements contained on the ORMUS elements. It is believed that they renovate the archetype of health and this provides to the other cells a different pattern from the nearest DNA cells; like it happens in cisplatin case and other chemotherapy drugs. According to David Hudson their ORMES is not an antidote for anything and they don't combat neither AIDS or cancer. He prefers to say that they are substances for-life that are good to perfect our bodies and to return them the perfect harmony with the Spirit. The studies "in vitro" that Hudson contributes, demonstrate that ORMES doesn't have toxic goods. There are a lot of people that has been ingesting ORMES during these last ten years, and there is not evidence of negative goods about it ingestion. Several people have reported the following goods of ORMUS that you should be easy to verify: Less oxygen necessity, or oxygen increment in the blood. -Pain reduction. -Elasticity increment. -Insomnia improvement. Other people have felt similar experiences about Kundalini awakening. These goods include: Hear in the silence, chakra heart and throat feelings, psychic experiences and a kind of nectar secretion, from the palate veil.

White Gold (Powder)

Manufacturer : Grial

White Gold contains extraordinary energy patterns that carry out a kind of superconductivity in the body, optimizing the relationship body-mind.

White Gold contains 68 different minerals and trace of minerals.

This mineral wealth stimulates the physiologic answer from the body to the external aggressions (illness, stress...)

It contains precious elements: Gold, Rhodium, Platinum, Ruthenium...

These elements act as a superconductors , increasing the nervous connection.

Its trace minerals wealth transforms it into a biocatalish , favoring the enzymes action.

It acts like as enzyme precursory , allow to the body to reestablish any chemical process that was inhibited.

The great content in Silica , Allows proteins hydration.

It confers tissue consistency and elasticity which is translated in a smoother and softer skin.

The Gold Powder (White Gold) it is a sacred powder extracted from the Great Canyon of Colorado (Arizona), in a land that was volcanic in other times and an area of mining gold exploitation. At temperatures of 700° down the earth, and with the fire element exalted toward high temperatures, a wonderful alchemy took place in form of a more beautiful sediment than the gold, the White Gold.

The history makes echo about the use of this powdered Gold, beginning with the powder that was obtained from the mummies in Egypt, by the sackers tombs. This powder became popular in the XIII and XVIII centuries, being known about its use by famous celebrities as William Shakespeare or Rupert Brooke , because it was associated with therapeutic properties and positive goods on mind and body.

Maybe all of this had relation with the compose substances that they was extracted from the Nile mud river. It was also used by the Egyptian priests in their Initiation rituals.

This sediment really contains extraordinary energy vibrations that influence in the electromagnetic fields of the human body.

White Gold makes a bridge between matter and energy due to the precious elements that it contains:

Earth has its own particle accelerator. (Orange field)

At magnetic fields level, the NASA had detected that Earth has its own particle accelerator, represented by the ring orange of the picture. In the vortexes that contact with Earth, there are big magnetic forces that confer superconductivity qualities to the land where they converge. White Gold, is extracted from an specific Great Canyon area (Arizona), where they are given incredible appointments force lines, that are working to accelerate the Ascension Earth process.

According to the doctor and investigator Richard Gerber :

“At physical level, gold powder seems to stimulate the interconnectivity between nervous system and the enormous net of connective tissues around all the body. Probably this characteristic is due to the elements that contains (gold, iridium, rhodium) that could be creating a class of biological and natural superconductivity that stimulates the communication between nervous system and body tissues. At body subtle level, the gold powder seems to stimulate the interconnectivity between physical body and etheric one and also between the etheric, mental and emotional ones. Due to this reinforced interconnectivity, the mental manifestation of the creations can be stronger when a person ingests the gold power. All these physiologic and subtle goods can improve the sensation of well-being in a person and his capacity to manage the stress, if he is willing to work with these superior energy.”

In the scientific magazine The American Scientist of May of the 1995 is explained:

“The investigators examined the electric estates of double DNA helixes with a short longitude, in which there was a ruthenium atom in each end of both filaments. Meade and Kayyem observed in their first studies that a single filament of DNA could lead to 100 electrons per second. Imagine their astonishment when they measured the flow of an impregnated filament with ruthenium and they saw that this was increased to 1 million electrons at second. It was as how the helix behaved as a piece of molecular copper.”

This White Gold superconductivity quality, contributes to experience benefits like as:

- Best Spiritual connection.
- Bigger intuition capacity.
- Bigger clarity and mental concentration.
- It increases the health and physical resistance.

- It optimizes the synchrony among brain left-right.

Our thoughts become more powerful and more coherent. It increases the electromagnetic thought vibration, allowing to accelerate the time required for manifestation desires . Said in another way, the time between desire and manifestation shortens.

White Gold composition (Powder 50 grs.): Natural powder rich on minerals and trace elements (Gold, Platinum, Rhodium, Iridium, Ruthenium, Silver... containing up to 68 minerals). It has the Earth Ascension wave pattern. Use recommendations: Half teaspoonful 1 or 2 up to day, preferably dissolved in natural juice or natural water. Also you can take it in homeopathic mode, down your tongue ¼ teaspoonful product. Keep at least 4 hours until going to bed.

Radionic

DS-2 Desire Machine

DS2 / All the electric network, a giant network

This innovative complement for R21, incorporates an organ lineal accumulator inside, and an interface that converts all the electric network of your zone or country in a super-antenna.

The radionic machine R21 capability increases drastically with this complement. This device connected to R21 is used as an interface like a super-antenna, but at the same time works as a duplicator of organ accumulator to increase the radionic machine power.

We will explain further all R21 connections, but now we are going to explain it's functioning as a desire machine.

Above, we see a wide square, here is where you have to put the piece of paper with your wish and then connect it to the electric network. THE CONSUME IS NONE, because the machine doesn't need electricity at all, even if there wasn't any electric flow it would work the same way, because what this connection takes advantage of is exclusively of the electrical installation as a super-antenna, without any type of consume.

You will take advantage not only of your household's electric installation, but also of your household's outdoors electric installation, until you get to the electric central, creating like this an exponentially powerful effect. This effect is safe and doesn't affect at all your electric network and there is no risk of an electric discharge.

HOW MANY WISHES CAN I ASK FOR? You can put many at a time, it would be better if you focus on a few though and the best would be just one, you can leave one night for one wish, the next night for the other, if you put a lot of wishes it's better if you leave the machine without any movement, once in a while just go and read your wishes, open your hands, and extend them over the wishes and the machine, try to memorize the wishes, don't worry if some doubts come to your head, if they did, think that the process has started already.

Even though we didn't give the correct use for us to get the lottery or things like that, there are clients who have told us that they have achieved it, but they haven't specify the position and the written wish they have used. Our experience had better results with things like finding jobs, overpass a disease, etc...

The wish has to be short and clear. For example:

- TAKE THE PAIN AND HEAL

You will notice 2 wishes together, one goes directly to the subject (TAKE THE PAIN) and the other one is general (HEAL). This construction follows a sequence that is advisable to adopt in any other wish, because one sentence reinforces the other one.

As we said before, the DS2 not only works to get your wishes, it can also be used for distance healing, for this is very important to use a witness (photography, nail, hair...) of the person on the right side of the rectangle and a piece of paper with the wish on the left side.

The treatment period can be 30 minutes a day, and we can put several wishes; but putting wishes that are related on the same subject would be advisable, even if they are for different people with the same purpose, for example: HEALING.

CONNECT THE DS2 INTO R21

Even though DS2 can work by itself, the use with R21 gives a thousand times amplified power. If we would use both machines at the same time, we should start tuning the dials of the R21 and then leave the witness in the DS2 for half an hour, for example.

The connection between both machines would be connecting to the output of the R21 with its 3 connections (M, ANT y C), the correspondent cables and in the other end would be to the input of the DS2 (M, ANT y C). You have to remember that DS2, has to be plugged in the electric network of the house.

Test and rehearsal your own experiments, experience will indicate you the infinite possibilities that DS2 has.

Enjoy it!

Lakrima Vita

Manufacturer : Lakrima Vita

The Mystical Jewel This Jewel is able to capture the universal energy and to decoder it, then let works our natural forces to fight the disease and the malaise

Starting off with the conviction that medicine is within the subject, and that is only precise, to activate, to stimulate, and to unblock the capacity of latent self health in each body; Jewel creator invented a technology based on the physical micro vibratory fields. Lakrima Vita uses waves and vibrations by means of resonance and interference phenomenon, contributing to the normal physiological body function.

The Jewel creator is an inventor and investigator whom during several years proved and improved a revolutionary device, that allows to canalize the energy that surrounds us through Lakrima Vita. This jewel works by the following way:

Balancing the human electromagnetic and plasm energy: by means of his alloy (without magnetic or ionic induction) provides us a multi frequency vibration, which is able to interact with the nervous system, allowing thus obtain and elevate its coordination level, This become the fundamental bases to the dysfunction corrections.

By means form waves: the geometric forms that contain (triangle, spiral...) generates resonance bands on certain frequencies, that allow to reflect and issue different waves related to these geometric forms.

The results obtained, are visible in the following photos with a person who had an annoying headache and fatigue.

At the first, she felt tired and headache.

After 10 minutes, to hang the Jewel. The pain disappeared and she felt rested.

Other applications

The Jewel normal use, is fitting to the plexus height (cardiac chakra), and carrying it always. When we used the Jewel, we experienced a great sensation of well-being, peace, joy... The energy that carries this jewel, can unblock our power channels, waking up again our creativity and live desire. Some people, experience in the beginning a light tickling or heat sensation, that indicates our power reaction, to the health frequencies that Jewel carries. field surrounding each living being, and a non-physical connection and unity (sometimes called the "universal mind") between living beings that is indifferent to the physical space between them. It holds that this field: "... sustains and vitalises it [the life of the being concerned]. If the field is weakened, for example by stress or pollution, then eventually the physical body also becomes weak, leaving it susceptible to illness. The aim of radionics is to identify the weaknesses in this field and to correct them, and thereby alleviate or prevent physical or emotional dis-ease. This subtle field cannot be accessed using our conventional senses." Radionics practitioners use techniques similar to dowsing to focus their own senses, identify weaknesses in the "energy field" of the patient or target and assist in the selection of remedies, and of frequencies to assist the broadcast of the "healing energy". These may include both physical instruments, of which Abrams himself designed thirteen, as well as use of items "unique to the individual" such as hair or their signature, as focussing aids for the the healing effect of the practitioner's own subtle energy. The description of these fields and related connections as universal and non-physical also means that according to its practitioners, Radionics is capable of use either in person or remotely, for healing purposes.

Conceptual precedents

Subtle energy fields and non-physical linkages between people are posited in various other healing and spiritual traditions. For example, auras are one common description of personal energy fields, spiritual healing and energy healing are other non-scientific traditions and practices of healing by means of energy, and both modern extrasensory perception concepts and ancient mystical and nondual concepts are supportive of the idea of a universal non-physical connection or "all living beings being one".

The idea of subtle energy is also paralleled by terms in other fields, including orgone, odic force and qi. Similar to the subtle energy fields proposed in radionics, none of these accord with any accepted scientific theory.

Radionics and healing

Radionics when is used as healing technique is based on the idea that all life and matter contains vibrations and harmonics which radionics seeks to manipulate: "all drugs that are specific in the treatment of disease have a definite vibration rate." According to this idea, a healthy person will have certain 'energy frequencies' moving through his body that define health, while an unhealthy person will exhibit other, different 'energy frequencies' that define his health disorders. Radionic devices are purported to detect and restore persons to restore their health pattern by applying healing frequencies to balance out the 'discordant' frequencies of sickness. Radionics borrows the word frequency to describe an imputed energy type and differs from usual meanings since it does not correspond to any property of the known forms of energy.

Albert Abrams developed thirteen devices claimed to detect such frequencies and restore health frequency pattern of people by matching their frequencies. Although Abrams did make some money off of his devices, he already had money to begin with due to inheritance. He lived a very simple life, using most of his money for further research. He was also considered by the American Medical Association to be the "dean of gadget quacks."

The first complete report on Radionics was compiled by Edward Wriothesley Russell in his book "Report on Radionics" (1973).

Testing usage

To operate a typical radionic device, a sample material is placed in the well, such as blood, saliva, or urine. The knobs act as a counter and are used to estimate the frequency at which the sample is thought to be vibrating. The stick plate is operated by the analyst who drags a finger across this plate while adjusting the knobs.

As the knobs are adjusted, there is a point where their finger sticks more firmly to the plate than at any other settings. This is referred to as "getting the stick." This point of greatest sticking is the setting for that knob. The analyst then moves on to adjusting the next knob to the point of greatest stick, and so on, until all knobs have been adjusted. The final readout across all knobs is described as the frequency for the sample material.

This method of operation is highly subjective, since it depends on an analyst experienced with moving their finger across the stick plate and interpreting what the sensations mean.

DESIRE MACHINE (DS-2)

This enlargement, increases drastically the potential of the R21.

It turns all the grid circuit into an antenna and in addition it has accumulator cells of organ.

Its design allows to work several desires simultaneously.

Organic Silicium G5 (1 liter)

Food supplement, completely taken in by organism and immediately bioavailable for the cells.

Perfect non-colloidal solution with no presence of crystallization, shaking not necessary. Dr. Loïc Le Ribault obtained the first drinkable organic silica in 1994. This product is the fifth generation of the oral organic silica (G5). It is easier to take in and more effective in its contribution of silica than any colloidal silica, silicic acid or plant extract high in silica and with none of the possible side effects of the above mentioned. Due to the deficiency of this element in numerous people (Seaborn, Nielsen 1993, 2004), it is highly recommended for old, weak, convalescent, tired people and also for sportspeople, as it helps to a general well-being.

Silicium G5 is recommendable for: Keeping joints supple and flexible, cartilage protection, bone development and calcium assimilation, rejuvenating tissue, healthy hair and nails, healing fractures, enhancing mineralization and promoting the rejuvenation and elasticity of the skin. Physiological activity: It is known that our natural silica reserve decreases with age, and that is an essential trace element required to maintain a healthy body. It has the same metabolims as phosphorus, magnesium and calcium. It allows calcium to be deposited in bone structure. It helps regain a greater elasticity to all our body tissues.

Ingredients: Water, Organic Silica (natural monomethyl silantriol). Directions for use: Take 10 ml three times a day, between five and ten minutes before meals. It is beneficial even for old people, pregnant or lactating women. It is compatible with any other medicine or complement, although for greater effect it is not recommended to take both at once. Other than this, no precautions are to be taken as is a completely non-toxic product .

Packaging: 1.000 ml. bottle. Drinkable liquid, insipid. Estimated duration of the bottle: 5 weeks. Liquid organic silicium of fifth generation, according to Le Ribault. For an intensive treatment from 25 to 35 days (three spoonfuls daily more local application) or from 4 to 5 months one spoonful if a daily maintenance is made. WARNING: Silicium G5 does not contain derivatives of salicylates (aspirin) nor plant extracts plants or other trace elements that limit their absorption. His assimilable organic silicon concentration is of 0.2%. This is the fraction that really is assimilated, the products that affirm to be more concentrated, perhaps will be in other extracts but not in assimilable silicon. It is what in chemist is denominated maximum solubility or concentration of saturation, everything what exceed of this limits make that the silantriol, precipitates and falls to the bottom or in any case crystallize without possibility that the organism absorbs e disabling its passage to the cells.
